The Gardaí	22
Section 4: Non-attendance at school	22
A largely Dublin phenomenon?	27
Concluding comment	29
Section 5: A court	30
The involvement of a court	30
Concluding comment	32
Section 6: The hearing	33
Part 1 Children's Court	33
Part 2: Procedure	33
Part 3: The Justices and the schools	36
Part 4: Committal rates relative to applications	39
Section 7: The period of detention in the school	40
Part 1: Fixing the period in the committal order	40
Part 2: The length of time for which children were committed	42
Section 8: Early discharge	43
Part 1: Early discharge by exercise of the minister's power	43
Part 2: Grounds for early discharge and case studies	46
Part 3: Figures on early release	47

Section 9: Residents placed voluntarily or sent by health authorities:	48
Residents placed voluntarily	48
Section 10: Population and entry figures, including geographical distribution	51
Part 1: Population	51
Part 2: Inflow through the courts	53
Part 3: Committals analysed by three sub-categories	58
Note on sources and methodology	67
Appendix 1: Period of committal	69
(I) Average periods of committal in Dublin Metropolitan District Court, 1934-75	69
(II) National figures, 1951-60	70
(III) National figures in 1940s	71
Appendix 3: Figures on early release	72
Average reduction in committal period: reduction in length of sentence	74
Reformatories	75
Numerical tables and comments	76

Chapter 3

The psychological adjustment of adult survivors of institutional abuse in Ireland — Report submitted to the Commission to Inquire into Child Abuse

	77
Executive summary	77
Acknowledgments	78
Acknowledgment to participants from the interviewing team	79
Part 1 Introduction	80
Summary of Part 1	80
Opening comments	80
What is known about the long term impact of child abuse and institutional living?	81
Conclusions	84
Part 2 Methodology	84
Summary of Part 2	84
Aims of the study	85
Time frame	85
Research team	86
Participants	87
Assessment interview	88
Procedure	92
Data management	95
Conclusions	95
Part 3 Characteristics of the sample	96
Summary of Part 3	96
Introduction	98
Historical characteristics	98
Demographic characteristics	98
History of abuse	99
Life problems	101
Strengths	102
Psychological disorders	102
Trauma symptoms on the trauma symptom inventory	103

Adult attachment styles	103
Reliability of multi-item scales	103
Correlations between indices of abuse and adjustment	104
Factors associated with age, gender and CICA committee attended	105
Conclusions	107
Part 4 Profiles of groups with different histories	140
Summary of Part 4	140
Questions addressed	141
Statistical analysis strategy	142
History of institutional living	142
History of child abuse	145
Conclusions	148
Part 5 Profiles of groups with different patterns of psychological disorders	176
Summary of Part 5	176
Introduction	177
Statistical analysis strategy	178
Multiple co-morbid psychological diagnoses	178
Mood disorders	179
Substance abuse	181
Personality disorders	182
Conclusions	185
Part 6 Psychological processes and coping strategies associated with institutional abuse	211
Summary of Part 6	211
Introduction	212
Theoretical basis for development of scales to measure abuse processes and coping strategies	212
Rational subscales included in the Institutional Abuse Processes and Coping Inventory (IAPCI)	212
Development of IAPCI factor scales	213
Confirmatory factor analyses	214
Reliability analyses	215
Questions investigated with the IAPCI	215
The IAPCI scales and institutional and family abuse	215
The IAPCI scales and adult adjustment	216
IAPCI profiles of groups of participants who had spent different amounts of time in institutions and entered under different circumstances	217
IAPCI profiles of groups of participants who reported different types of worst abusive experiences in institutions	218
IAPCI profiles of groups of participants who groups of participants who had different numbers of psychological diagnoses	219
Model of childhood institutional abuse, psychological processes, and adult adjustment	220
Conclusions	220
Part 7 Conclusions	239
Aims of the current study	240
Methodology	240
Summary of main results	240
Strengths and limitations	247
Recommendations	249
References	250
Appendix 1. Interview Protocol	255

Appendix 2. Scripts and Information Sheets	336
Summary of the institutional abuse survey	338
Past research	338
Aims of the current study	339
Methodology	339
Profile of overall sample	339
Male and female survivors	343
Older and younger survivors	343
Participants from the CICA confidential and investigation committees	344
Subgroups defined by duration of time in an institution and circumstances of entry	344
Subgroups defined by worst form of institutional abuse	345
Profiles associated with patterns of adult psychological disorders	346
Institutional abuse processes and coping strategies	348
A model of institutional abuse, psychological processes and adult adjustment	348
Strengths and limitations	348
Recommendations	349
